## **GLENDALÉ REVISES ORDINANCE FOR RESIDENTS TO PLACE SANITATION CONTAINERS IN THE STREET**

**GLENDALÉ, Ariz.** -- The city of Glendale has recently updated its ordinance on the placement of sanitation and recycling containers. This new ordinance goes into effect on Jan. 1, 2014, and requires all residential containers (refuse/recycling) be placed in the street at the curb.

With a few exceptions, this will be the new procedure on collection days. These exceptions are:

- If your residence is located on an arterial street (a main thoroughfare) you will not place your containers in the street due to vehicle traffic. Place containers on the sidewalk, close to the curb (please allow pedestrians to walk on the sidewalk with no obstructions).
- If you live in an area with alleys behind your home, you will continue to take your trash to the sanitation container in the alley, and now you will place your recycling container in the street in front of your home.
- A property with no access to the street and no sidewalk will place their containers at the edge of the driveway closest to the street.
- A property with a detached sidewalk (open area between sidewalk and curb) in front of the home will place the container in the street at the curb.

The safety of its residents is the city's number one priority. This modification will provide unrestricted access to the city sidewalks for all pedestrians in the community, reducing the need for pedestrians to navigate around sanitation containers and onto private property or city streets.

For additional information, questions or concerns, visit [www.glendaleaz.com/sanitation](http://www.glendaleaz.com/sanitation) or call the Sanitation Division at 623-930-2660.
